

# The NDIS and getting ready for it

## Information session for carers of a person with a disability

Alfred Health Carer Services invites you to understand more about the NDIS. We are holding an information session for local carers to help you to understand and prepare for the NDIS and become confident in dealing with the new disability system.

The session will be held during the day at the Alfred Health Carer Services offices in Caulfield alongside Caulfield Hospital.

### **Session: NDIS pre-planning**

Planning is key to accessing the NDIS. This session will assist with writing goals, identifying reasonable and necessary supports and preparing carer statements.

## FREE CARER EVENTS
